UI/UX Designer with 1+ year of experience in mobile and web development. Skilled in Figma and Design Thinking, with a strong focus on usability and accessibility. also committed to designing intuitive and impactful solutions.

EDUCATIONAL HISTORY

BACHELOR OF COMPUTER SCIENCE

Alma Ata University, Yogyakarta

GPA 3.81/4.00.

Sep 2019 - July 2024

Information System

RELEVANT EXPERIENCE

UI/UX DESIGN

Syneps Academy

Feb 2025

Mini Project

- Created wireframes and structured the app's navigation for a seamless user experience based on study case.
- Developed an intuitive booking process, from room selection to payment.
- Designed visually appealing pages displaying room types, prices, and amenities.

GRAPHIC DESIGN

Growth Skill

Jan 2025 - Feb 2025

Bootcamp Batch 2

- Utilized Canva and Figma to create digital designs.
- Developed visual identities for design projects based on client briefs.
- Designed Instagram feed content with a cultural exhibition theme.

UI/UX DESIGN

Alma Ata University

Jan 2024 - July 2024

Thesis

- Conducted rebranding by designing and developing a modern, user-friendly UI/UX.
- Performed qualitative research through direct user interviews to identify user's needs and user's pain points.
- Created empathy maps, user personas, user flows, information architecture, wireframes, and mockups.
- Achieved a System Usability Scale (SUS) score of 75 through usability testing.

UI/UX DESIGN

PT. Media Kreasi Abadi | MSIB 3

Aug 2022 - Dec 2022

Internship

- Pioneered the development of the Narasource online interview application.
- Applied user research through design thinking methodologies to systematically and structurally solve problems and design solutions.
- Designed the Narasource application for both mobile and web platforms using Figma.
- Handled all UI/UX design tasks under mentor guidance, including logo creation, style guides, user personas, user flows, wireframes, mockups, clickable prototypes, and usability testing.
- Collaborated by practicing the scrum method with (frontend, backend, mobile developers, and business analysts) through backlogging, cycle meetings, and daily scrum.

UI DESIGN

Hasnur Center Foundation

July 2022

Internship Selection

- Designed and developed a working prototype for an E-Learning application as part of an internship qualification process. The project aimed to showcase my ability to create a user-friendly interface while adhering to specific technical and design requirements.

FRONT-END DEVELOPER

Binar Academy | MSIB 2

Feb 2022 - July 2022

Independent Study

- Learning Front-end basics such as SDLC, HTML, and CSS as a graduation competency.
- Use Visual Studio Code, GitHub, Bootstrap, Trello, and Agile Method.
- Hone soft skills in a growth mindset, critical thinking, problem-solving, and creative thinking.

UI Design

Alma Ata University

Nov 2020 - Jan 2021

Course Project

- Led the design and development of the Jobdesk mockups, ensuring a seamless user experience on the web platform.
- Designed key features, including a dashboard, job fields page, and profession details page, focusing on usability and accessibility.
- Utilized tools like Figma and Adobe XD to create wireframes, high-fidelity mockups, and clickable prototypes.
