A Bachelor of Information System graduate at Telkom University who is very interested in Product Management. Graduated with a GPA of 3.38 with several organizational experiences on campus. Currently, I am taking course to learn more about various aspects of Product Development, and gaining valuable insights that I am eager to apply in real-world scenarios. I have a passion for product development with critical thinking. Passionate about learning new things and contributing positively to assigned projects.

## Work Experiences

---
