Bogor, West Java 16730

A final-year Computer Science student at IPB University with a strong passion for UI/UX Design and proficiency in using tools like Figma. I have experience designing user-friendly interfaces for both web and mobile applications, ensuring seamless interactions across different platforms. Whether learning or working on projects, I am dedicated to refining every detail that enhances user experience. I thrive in both individual and team settings, believing that collaboration drives innovation and impactful work.

Experiences
