SUMMARY

As a Computer Science graduate with a strong passion for technological innovation, I am highly motivated to continuously learn and adapt to the advancements of the digital era. I have hands-on experience in developing software solutions using various modern tools and technologies, including WordPress with Elementor, Flutter Framework, Database Management Systems (MySQL), Version Control Systems (GIT), and design tools such as Figma and Canva. I am also proficient in Linux operating systems and other software development support tools.

Currently, I specialize in front-end development for cross-platform mobile applications (Android and iOS) using Flutter, with a focus on creating responsive and user-friendly interfaces. I am eager to contribute to innovative projects and bring added value through my technical expertise and creative problem-solving skills.
