Alita is a fresh graduate from Informatics Engineering at Mataram University with skills in Software Development, UI/UX Design, and Communication. Alita is **The Most Outstanding Student At The University of Mataram In 2024**. She also graduated from the Apple Developer Academy @IL and committed to continuous learning by participating in courses, competitions, being active in organizations, and volunteering.

## Education

<b>Universitas Mataram</b> <i>Informatics Engineering</i>	Sep 2020 - June 2024
• CGPA 4.00 out of 4.00 • The Most Outstanding Student At The Mataram University in 2024.	

  

<b>Apple Developer Academy @IL</b>	Feb 2023 - Dec 2023
<i>Certificate of Completion</i>	

## Experience

<b>Apple Developer Academy @Infinite Learning - Internship</b>	
<b>UI/UX Designer - Jalur</b>	Sep 2023 - Now
• Reducing User Error Rates: Designing intuitive interfaces to minimize user errors and enhance the overall user experience across our applications.	
• Collaborating Effectively: Working closely with cross-functional teams, ensuring compatibility with the technologies in use, and fostering strong communication and teamwork to achieve shared goals.	
• Identifying and Resolving UI Issues: Proactively identifying problematic UI areas through user feedback and support reports, and implementing necessary improvements.	
<b>UI/UX Designer &amp; iOS Developer - Fox Voyage</b>	Jun - Jul 2023
• User Research & Analysis: Conducting comprehensive user research to understand needs and pain points.	
• Design Prototyping: Creating wireframes, prototypes, and mockups for testing and iteration.	
• Improving UI Efficiency: Proactively analyzing user feedback and support reports to identify and resolve UI issues, ensuring a seamless user experience.	
• As an iOS Developer on this project, I utilized SwiftUI to build a user interface with multiple screens, Core Data to manage the user database, and MapKit to integrate interactive maps across various geographic locations. I also employed Git for version control to ensure seamless teamwork and code integration	
<b>iOS Developer - Astro Arithmetics</b>	Mar - Apr 2023
• Developing Engaging UI: Utilizing SwiftUI to create an intuitive and visually appealing user interface for a simple math game, ensuring an immersive user experience.	
• Optimizing Game Performance: Ensuring smooth gameplay and responsiveness by refining game components and adhering to best practices in SwiftUI development.	
• Maintaining Code Efficiency: Following SwiftUI development standards to improve maintainability, scalability, and overall application performance.	

## Laboratory Assistant at Mataram University

2021-2022

- Assisting in Data Structures and Digital Systems: Serving as a Laboratory Assistant to support students' academic development in algorithm and digital systems courses.
  - Weekly Mentoring Sessions: Providing guidance on class materials and practical sessions to reinforce students' understanding and skills.
- 

## Honors & Awards

### App Spotlight – Future Leader Summit (Government Showcase)

Dec 2024

- Jalur App was selected for a high-profile government showcase in collaboration with Apple Inc. Presented the app as an innovative solution to support Muslim drivers in fulfilling their religious obligations during long journeys, highlighting its impact on technology and social good.

### Top Participant in the User Experience Research Bootcamp by Skilvul

May 2024

- Awarded as the top 10 participant in the User Experience Research Bootcamp for actively engaging in discussions and demonstrating the ability to integrate research findings into optimal solutions.

### Featured on the AppStore during Ramadhan

Mar 2024 - Apr 2024

- During Ramadan 2024, 'Jalur' was selected as an app to be featured on the App Store for Ramadan, receiving 4 million impressions. [See story here](#).

### Apple Developer Academy Graduation Spotlight

Dec 2023

- Successfully positioning 'Jalur' as the representative at Apple Developer Academy @Infinite Learning during the graduation earned it recognition as one of the most impactful project across all Indonesian academies. Featured in media outlets like [detik](#), [kumparan](#), and [jawa pos](#).

### Successful Proposal Submission in University-Level Student Creativity Program

2022

- In the student creativity program, submitted two proposals with the title "Rancang Bangun Aplikasi Covidia (Covid Diagnose System) Sebagai Media Pendekripsi Covid-19 Berbasis CT SCAN" and "Analisis Pengaruh Penggunaan Pre-Processing Pada Klasifikasi Citra X-Ray Corona Virus Disease-19". Both proposals successfully passed the university level.

### 1st runner-up & Best Speaker in the National University Debating Championship

2021

- Achieved the title of "1st runner-up" and "Best Speaker" in the National University Debating Championship. This accomplishment signifies excellence in both team performance and individual speaking ability, demonstrating skillful argumentation, critical thinking, and effective communication throughout the competition.
- 

## Skills

**Hard Skills:** UI/UX Design, User Research, Prototyping, Wireframing, Usability Testing, Figma, SwiftUI, Xcode, HTML, CSS, JavaScript, Python, MVVM.

**Soft Skills:** Public Speaking, Teamwork, Collaboration, Communication, Critical Thinking, Problem Solving, Growth Mindset, Time Management.
