ABOUT ME

An Information Systems fresh-graduate at Bina Sarana Informatika University. Currently, engaged in independent learning activities at Infinite Learning for 5 months on Android Mobile Development & UI/UX Design. Has completed internship period for 3 months at PT. Sakura Group Indonesia in the content creator/design graphics section in Landing Pages builder for products. In addition, independent learning or attending online UI / UX Design classes because of interest in continuing career paths in these fields. These fields are also relevant to the lecture majors being run.

EDUCATION

A. Formal

UNIVERSITY OF BINA SARANA INFORMATIKA
D3 Information Systems

Sept 2021 – Nov 2024

B. Non-Formal

• **INFINITE LEARNING**

Android Mobile Development & UI/UX Design

Feb - June 2024

Learn about UI/UX Design in detail using the Design Thinking method. Learn about the Kotlin programming language and build an application. Learning about soft skills in project management, public speaking, branding, and collaboration is provided. Project Massive received appreciation for the 3 Best Product Collaborations (Web x Mobile x AI).

• **SKILHUB ONLINE CONFERENCE**

March 2024

UI/UX Design

Learn about product manufacturing, sustainable product manufacturing, using AI to help product development, and manufacturing your products. I created a plant-themed landing page design and was among the 30 best participants out of 200 participants.

• **PERMATAYOUTHRENEUR 2023**

Sept – Nov 2023

Stage 1 Basic UI/UX Course - Stage 2 Digital Product Development

Stage 1 learn about Define Problem &; Solution, User Flow, Wire-frame, and Making UI Landing Page. The final project is an individual landing page. I created a Handicraft UMKM Landing Page. Stage 2 learn about UI/UX Design &; Customer Discovery intro, Business Plan Pitch Deck, Product Design, and Testing. The final project was carried out in groups and I was in charge of being a User Researcher.

EXPERIENCE
