Skilled in managing creative projects, organizing large-scale events, and delivering innovative solutions. Demonstrates strong abilities in team leadership, fostering collaboration, and implementing effective strategies in dynamic environments. Passionate about creating meaningful impacts through technology, innovation, and community empowerment, while continuously striving to learn and excel in professional challenges.

## PROFESIONAL EXPERIENCE

---

### Arrow Generation, Balikpapan

Dec 2022 & Dec 2023

#### Core Committee

- Led and managed a team of 6 divisions with a total of 40 members, achieving a 35% improvement in youth engagement through well-organized activities tailored to young audiences.
- Developed a variety of interactive programs, resulting in a 50% increase in youth participation compared to the previous year.
- Collaborated with several youth-focused organizations to contribute content and activities for the event, enhancing program diversity and engagement for young attendees.
- Conducted extensive outreach and fundraising efforts to increase the event budget, allowing for enhanced programming and resources.
- Successfully engaged local youth to actively participate, fostering a strong sense of community involvement and ownership in the event.

### Smansa Epicentrum, Balikpapan

Nov 2022 – Dec 2022

#### Event Committee staff

- Successfully managed partnerships with external sponsors, contributing to 30% of the event's budget, which allowed for additional event features and facilities.
- Developed a logistics plan to accommodate both student and public audiences, reducing entry wait times by 20% and ensuring a smooth event flow.
- Oversaw artist relations and technical setup, ensuring seamless performances and a memorable experience for attendees.

### INFINITE Vol.2 & ASCENT, Balikpapan

2023

#### Event Committee member

- Organized and coordinated multiple competitions, from planning to execution, contributing to a well-structured event timeline with a successful opening and closing ceremony.
- Led efforts to secure sponsorships from local businesses and educational institutions, covering 40% of the event budget and enhancing the range of activities offered.
- Collaborated across teams to design and execute engaging side events, creating a memorable experience and boosting audience engagement.

### Spin Etam, Balikpapan

2023

#### Head of Equipment and Permits Division

- Coordinated a welcoming event for over 1000 new students, ensuring smooth registration, orientation, and integration activities.
- Secured 5 sponsorships from local businesses, covering 15% of the event budget and enhancing event offerings.
- Fostered a supportive environment for new students, facilitating their transition into campus life through engaging and informative sessions.

**PMK ITK, Balikpapan** 2023 - Now

*Staff of Fellowship Division*

- Assisted in organizing and managing religious activities and events for the campus community, fostering spiritual growth and engagement among students.
- Coordinated weekly fellowship meetings, ensuring smooth execution of programs and enhancing participation by 20%.
- Collaborated with other divisions to ensure effective communication and promotion of events, leading to a 15% increase in attendance at religious services and discussions.

**Media Selaras Cendekia, Tangerang** 2024

*Front-End Freelance*

- Built a responsive and user-friendly platform for facilitating thesis consultations in the Science and Social Studies domains. Focused on creating intuitive front-end designs to enhance user experience and streamline the consultation process. Utilized modern technologies, including Next.js, TypeScript, and Tailwind CSS, to deliver a high-performing, scalable application.
- Created interactive and visually appealing interfaces for career interest and aptitude assessments, prioritizing accessibility and user engagement. Leveraged Jest for testing to ensure robust functionality and smooth interactions across devices and browsers.
- Collaborated with back-end developers and UI/UX designers to ensure seamless integration of features, resulting in a 20% increase in user satisfaction based on feedback.
- Leveraged a cutting-edge tech stack, including Next.js for server-side rendering, TypeScript for enhanced code quality and type safety, Tailwind CSS for efficient styling, Jest for rigorous testing, and clsx for dynamic class handling, ensuring a robust and maintainable front-end architecture.

**Institute of Technology Kalimantan, Balikpapan** 2024

*Project Manager & Front End Developer – Academic Project*

- Collaborated with the supervising professor and team members to establish clear project objectives and deliverables. Ensured alignment between the application's purpose and academic expectations, providing a solid foundation for successful development and evaluation.
- Designed a detailed project roadmap outlining critical milestones, deadlines, and strategies for achieving objectives. Regularly updated timelines to reflect progress and addressed any delays proactively, ensuring the team stayed on track and maintained focus on priorities.
- Fostered a collaborative and productive work environment by promoting open communication and addressing team challenges effectively. Encouraged innovation and teamwork to meet project goals, ensuring all members felt valued and empowered to contribute.
- Utilized Notion for task delegation, backlog prioritization, and progress tracking to maintain workflow clarity. Regularly reviewed tasks to ensure timely completion, supported team members in overcoming challenges, and delivered a polished final application that met academic and technical standards.
