SUMMARY PROFILE

I am a third-year Information Systems student at the University of Jember with a strong passion for IT Project Management. I have successfully led and coordinated over five academic projects using Agile methodology, ensuring timely delivery and efficient resource allocation. Skilled in project planning, stakeholder communication, and documentation. I am utilize Notion and Trello for project management, along with draw.io for system diagramming. With a strong commitment to teamwork, I thrive in collaborative environments and am always eager to contribute innovative solutions to drive projects efficiently from initiation to completion.
