- **Framework**: Wordpress, Laravel, CodeIgniter, React.js
- **Programming Languages**: Javascript, PHP, HTML, CSS, Java, SQL
- **Languages**: Bahasa Indonesia(native), English

EXPERIENCE

Programmer (Full Time)   **Sept 2024 - present**
Yayasan Cinta Sedekah | Yogyakarta, Indonesia
- Developed and maintained cintasedekah.org using WordPress and the Elementor plugin, enhancing site functionality and user experience.
- Designed and implemented key features such as a scrollable navbar, milestone progress bar, hamburger menu updates, and improved layout design.
- Built interactive prototypes in Figma to streamline feature development before implementation.
- Optimized website performance by 28%, improving load times and overall efficiency.
- Managed hosting, file storage, and routine backups through Domainesia to ensure system reliability.
- Led the development of office.cintasedekah.org, the internal Office Management System (OMS), contributing to both frontend and backend features.
- Enhanced OMS functionality by updating database structures, refining input forms, optimizing layouts, fixing bugs, conducting manual QA testing, and ensuring system stability.
- Utilized PHP, JavaScript, HTML/CSS, CodeIgniter, and database management techniques to develop responsive, scalable web applications.

Site Reliability Engineer (Internship)   **Jun 2020 - Feb 2021**
Badan Sistem Informasi UII | Yogyakarta, Indonesia
- Redesigned and refactored the UII Ops Monitoring Dashboard, implementing critical features for the SRE team, including postmortem analysis, incident tracking, web monitoring, and team management tools.
- Spearheaded the migration of the dashboard's programming language from PHP to Go (Golang), enhancing the application's efficiency, maintainability, and security.

PROJECTS

Web Based Application Yayasan Cinta Sedekah   link   **Present**
- The Yayasan Cinta Sedekah Public Website is a dynamic platform built using WordPress, designed to provide easy access to essential information for the public. It features a comprehensive profile of the foundation, detailed reports, ongoing and completed programs, and multiple donation options. This user-friendly and interactive website ensures transparency and strengthens the connection between the foundation and its partners, showcasing its commitment to openness and effective communication.
