Jl. Sukabirus no 82, Kabupaten Bandung, Dayeuhkolot, Jawa Barat, Indonesia

As a final-year student who is still struggling to learn and increase his knowledge. I have a lot of knowledge in frontend developer and a little in backend developer. I started to use this knowledge in the world of lectures, as well as my internship experience in creating websites and applications. With the abilities that I have, I want to always contribute to the development of the existing world of technology along with my desire to improve my skills. I also really appreciate and believe in the learning process that I receive because it is the result of the efforts I make in improving my skills in the world of software engineering.
