I am a fresh graduate in Informatics Engineering from Universitas Komputer Indonesia with a strong interest in User Experience (UX) Research, Design, and User Interface (UI). I enjoy brainstorming ideas and finding solutions to problems. I am highly motivated, communicative, and able to work both independently and as part of a team.

Work Experience

UI/UX Design • PT. AccSEC Priority

September 2023 - Oktober 2023 | Bandung

- Conducting Research
- Make a Website Design
- Create a Company System Design
- Hand over the design that has been made to the developer

Education Level

Universitas Komputer Indonesia

Informatics Engineering • 2020 - 2024

- Learn basic HTML, CSS, JavaScript
- Focus on Human-Computer Interaction
- Creating Management Information System
- I am studying the Software Development Life Cycle (SDLC) process to understand how software is planned, developed, tested, and maintained.

My final project focused on designing an interaction design for dyslexic children aged 6-11 to support social and emotional learning, based on the Individual Educational Program at the Child Development Center in Bandung. The project resulted in a native prototype of a platformer game designed to engage and interest dyslexic children.

Startup Campus

UI/UX Design Track • 2023

- Conducting user research to define goals.
- Creating user personas, customer journey maps, and user stories based on user research.
- Developing solutions based on user research and prioritizing them using metrics.
- Analyzing information architecture and user flow.
- Creating a design system and high-fidelity prototypes.
- Conducting user testing using ISO/IEC 9241-11 metrics to measure effectiveness, efficiency, and satisfaction.

My final project focuses on designing a user-friendly, trustworthy, and engaging dating application by applying the Design Thinking methodology. The goal is to enhance the user experience by understanding user needs, iterating on solutions, and ensuring an intuitive and enjoyable interaction.

Skill

- User Experience Research
- User Experience Design
- User Interface Design
- User Testing
- Communication
- System Analyst

Language

- Indonesian — Fluent
- English — Intermediate
