ACHIEVEMENT

PKM Competition by HMTI (Himpunan Mahasiswa Teknologi Informasi) Politeknik Negeri Malang – Malang
PKM KC (Karsa Cipta) - **Best Visionaries** (October 2023)

PROJECT EXPERIENCES

Pharmacy Cashier System
Basic Programming (June 2022)
- Developed a mini pharmacy cashier system using Java to handle point-of-sale operations efficiently.
- Implemented core functions of the cashier system such as checking stock, restocking, checking prices, and displaying sales recap

Satisfaction Survey System at Politeknik Negeri Malang
Web Programming Course Project (February – June 2024)
- Developed the Customer Satisfaction Survey System using HTML, CSS, JavaScript, and PHP to create a user-friendly interface
- Designed key features such as survey management, user management, and real-time dashboards.
- Collaborated with the backend development team to ensure seamless integration and data consistency.

Sistem SDM (Sumber Daya Manusia) JTI (Jurusan Teknologi Informasi) - Politeknik Negeri Malang
Advanced Web Programming (August – December 2024)
- Developed the Sistem SDM JTI website using Laravel to manage human resource data efficiently.
- Ensured real-time data synchronization between web and mobile platforms using APIs.
- Performed functional testing and debugging to ensure optimal performance and minimize system errors.

Mobile Programming (August – December 2024)
- Developed the Sistem SDM JTI mobile application using Flutter and Dart to manage human resource data efficiently.
- Integrated the application with the RESTful APIs built for the web version to ensure real-time data synchronization.
