About Me

A Bachelor of Informatics graduate with practical experience in UI/UX design, specializing in creating user-centered digital solutions using tools such as Figma and Adobe XD. Skilled in prototyping, wireframing, and user research, with a proven track record of enhancing product usability and increasing user engagement. Demonstrated leadership through active involvement in HIMASTI and BEM, managing collaborative projects and developing strong teamwork skills. Eager to contribute innovative design strategies to create exceptional user experiences in a dynamic team environment.
